

Supporting young people to be safe, responsible and positive online

Free seminar for parents and caregivers

Optus Digital Thumbprint for parents and caregivers is a free seminar about the challenges of the digital world for young people – and how to deal with them. The session provides practical information on key topics such as:

- Staying safe online
- The importance of password security and privacy sessions
- Cyberbullying
- How to report and get inappropriate content removed
- Gaming
- Topical case studies, including Tik Tok

Optus Digital Thumbprint is an award-winning program that supports young people and families to be safe, responsible and positive online. Visit digitalthumbprint.com.au to learn more.
