How to safeguard your child's privacy on popular apps and games

The internet and social media allow children and young people to easily find and engage in adult worlds and while most popular platforms state account holders must be over 13 years of age, many kids below this age already regularly engage with social media.

If your child has a social media account or is on a gaming platform help them to stay safe by setting profiles to private and limiting the information they share online.

Kids often believe people who say they know a mutual acquaintance at their school. Setting accounts to 'private' controls who sees your child's content and who can contact them.

This guide provides practical tips on how to:

- Set accounts to private
- Keep your location private
- Block or remove followers
- How to report inappropriate contact
- If you need more help

How to start the conversation

One of the ways to introduce this concept to your child is to ask them questions such as:

- "Apps and games have age limits, a bit like the way movies have ratings. It's so that you don't see things that aren't meant for you or that are dangerous or upsetting. Let's check the age restrictions on this together."
- "Sometimes adults pretend to be people they're not and will contact you asking to be your friend, get

Account Privacy Tips:

- Set your profile to "Private" and check location settings
- Don't use the same password and email address on all your apps and games
- Make sure your password has nothing to do with your name, birthday or address

you to send them photos, or even send photos of themselves. This can be scary or upsetting and it's good to make sure that these people can't contact you. Let's change your profile to private so only people you know can contact you."

- "If your profile is public, anyone can look at your posts, photos, profile information, and interact with you. Let's change your profile to private so only people you know can see your information."
- Change your passwords regularly
- Use at least 10 characters, although the longer the better
- Don't keep passwords on your phone or computer
- Use multi-factor authentication if possible

How to report inappropriate content

The eSafety Commissioner is Australia's national independent regulator for online safety. The Office of the eSafety Commissioner has developed an **eSafety Guide** with reporting links and information for a range of social media services, games, apps and sites. Reporting of inappropriate images, content, and cyberbullying can also be made directly to https://www.esafety.gov.au/report

What to do if you need more help

If your child ever sees or receives anything online that makes them uncomfortable, they should feel supported in discussing it with you or their friends or teachers. Alternatively, they can call Kids Helpline, Australia's only free, private and confidential 24/7 phone and online counselling service for 5 to 25 year olds. 1800 55 1800 kidshelpline.com.au
